

Date: 02nd September 2026

Version: 04

1. Identification of the substance and company's information

Compound name: Hydroxyapatite (HAp)

Chemical formula: $\text{Ca}_{10}(\text{PO}_4)_6(\text{OH})_2$

Chemical family: Inorganic compound

CAS No.: 12167-74-7 / 1306-06-5

Application of the substance: Laboratory chemicals, Manufacturing of substances

Trade name: Ceramat Consumer Grade Nano HAp

Manufacturer/Supplier:

Ceramat Private Limited

Unit No. 14, Sethia Industrial Park, S.No. 39/1, Bilalpada, Vasai East-401208, Maharashtra, India

Emergency telephone number: +91-8857861496, +91-9665888516

Email: sales@tsl-ceramat.com

2. Hazards identification

The substance is not classified according to Globally Harmonized System (GHS)

Hazard description: Not applicable

Information concerning particular hazards for human and environment: Not applicable

3. Composition/Information on ingredients

Chemical characterization:

CAS No.: 12167-74-7 / 1306-06-5 Hydroxyapatite [$\text{Ca}_{10}(\text{PO}_4)_6(\text{OH})_2$]

4. Proposed First-aid measures

General information: No special measures

After inhalation: Inhale fresh air; consult doctor in case of respiratory complaints.

After skin contact: No known irritation as it is biocompatible.

After eye contact: Rinse opened eye for several minutes under running water.

After swallowing: If symptoms persist consult a physician.

Most important symptoms and effects, both acute and delayed: Not known.

Indication of any immediate medical attention and special treatment needed: Not known.

5. Fire -fighting measures

Suitable extinguishing agents: Not inflammable.

Special hazards arising from the substance: No further relevant information available.

Protective equipment: No special measures required.

6. Accidental release measures

Personal precautions, protective equipment, and emergency procedures: For bulk handling wear protective clothing.

Environmental precautions: Not known.

Method and material for containment and cleaning up: Pick up mechanically.

Additional information: No dangerous substances are leached.

7. Handling and storage

The powder is packed in sterilized and sealed High-Density Polyethylene (HDPE) containers.

Information for safe handling: No special measures required.

Information about fire-and explosion protection: No special measures required.

Storage: Avoid exposure to water and moisture. Keep the container tightly sealed and store it in a cool and dry area.

Information about storage in one common storage facility: No issues in such storage.

Further information about storage conditions: Store as supplied until used.

Spill Handling: Clean the spilled powder without creating any dust to avoid inhalation or eye irritation. It is a non-toxic powder. Clean with water and detergent.

8. Exposure controls/personal protection

Additional information about design of technical facilities: Some sub-micron particles may be suspended in the air. Therefore, adapted ventilation in this zone is recommended otherwise the operator must wear a dust mask.

Personal protective equipment

General protective and hygienic measures:

The usual precautionary measures are to be adhered to when handling thermal spray powders.

Respiratory protection:

Wear dust mask (V44/N95) during the handling of the powder.

Protection of hands:

Protective nitrile hand gloves.

Eye protection: Wear the safety glasses as airborne dust may cause eye irritation.

9. Chemical/Physical properties & General Information

Colour: Milky White

Physical state: Solid

Chemical Formula: $[\text{Ca}_5(\text{PO}_4)_3(\text{OH})]$, usually written as $\text{Ca}_{10}(\text{PO}_4)_6(\text{OH})_2$

Formula Mass: 1004.62 g/mol

Crystal system: Hexagonal

Form: Powder

Odour: Odourless

Melting point: 1670°C

Boiling point: Undetermined

Flash point: Not applicable

Flammability: Product is not flammable.

Danger of explosion: Product does not present an explosion hazard.

Bulk Density: 0.1 to 0.6g/cc

Solubility: 0.1M HCL, complete colourless; not soluble in water.

pH-value (100g/l) at 20°C: 7-9

10. Stability and reactivity

Thermal decomposition: The product starts to decompose above 1200°C and completely decomposes above 1700°C.

Dangerous reactions: No dangerous reactions known.

Dangerous decomposition products: Not known.

11. Toxicological information

Biocompatible (*in vitro*, *in vivo* (mice)) according to ISO10993-11/12.

Acute toxicity: LD50 (rat) following a single application is greater than oral rate 3000 mg/kg body weight.

Primary irritant effect:

On the skin: None

On the eye: None

Sensitisation: None

Additional toxicological information:

When used and handled according to specifications, the product does not have any harmful effects to our experience.

12. Ecological information

General notes:

Do not allow product to reach ground water, water course or sewage system in its unused form.

Toxicity

Bioaccumulative potential: No bioaccumulation potential.

Aquatic toxicity: No further relevant information available.

Persistence and degradability: No further relevant information available.

Mobility in soil: No further relevant information available.

13. Disposal considerations

Waste treatment methods

Recommendation: HAp is nontoxic and non-hazardous material, follow local regulation for disposal.

Recommendation: Disposal must be made according to official regulations.

Recommended cleansing agent: Water, if necessary other cleansing agents.

14. Transport information

Land transport ADR/RID (cross-border)

ADR/RID class: No dangerous goods.

Material Safety Data Sheet-Cerammat Consumer Grade Nano HAp

Maritime transport IMDG:

IMDG class: No dangerous goods.

Air transport ICAO-TI and IATA-DGR:

ICAO/IATA class: No dangerous goods

Special precautions for user: Not applicable

Transport in bulk according to Annex II of MARPOL73/78 and the IBC code:

Not applicable

Transport /Additional information: Not dangerous according to the above specifications.

15. Regulatory information

Labelling according to EU guidelines:

The substance is not subject to classification according to EU lists and sources of literature known to us. Safety, health and environmental regulations/legislation specific for the substance or mixture SARA (Superfund Amendments and reauthorization Act of 1986-USA).

Section 302/304 (40CFR355.30/40CFR355.40): Substance not listed.

Section 313 (40CFR372.65): Substance not listed.

TSCA (Toxic Substances Control Act): Substance is not listed carcinogenic categories.

EPA (Environmental Protection Agency): Substance is not listed.

TLV (Threshold Limit Value established by ACGIH): Substance is not listed.

MAK (German Maximum Workplace Concentration): Substance is not listed.

NIOSH-Ca (National Institute for Occupational Safety and Health): Substance is not listed.

16. Other Information:

The above information is believed to be correct to our knowledge but it does not purport to be all inclusive and shall be used as a guide. The information in this document is based on the present state of our knowledge and is applicable to the product with regard to appropriate safety precautions. It does not represent any guarantee of the properties of the product and shall not establish a legally valid contractual relationship.
